

Continuous Motion Solutions -

CATRAC Cable & Hose Carriers meet the demand for high quality, low cost, lightweight methods of carrying and protecting cables and hoses.

Our **mill-duty carriers** deliver high performance in **extreme environments**. The double welded carrier with bolted construction is the ultimate in strength for a carrier.

All Steel construction is fabricated from 80,000 lb. tensile steel links and assembled with 9/16, 3/4, or 1" hardened shoulder bolts and locknuts.

Box beam construction is standard in the 456, 606 and 808 styles. **CATRAC** can absorb side thrust loads and withstand severe hydraulic shock loads.

- Prevents twisting & wear
- Ease of installation and service
- Many stock and custom styles available

Contact us at **Hillcrest Enterprises** to learn more about possible applications for your business. Cut sheets and drawings are available upon request.
